TOP & BOTTOM WOOD CEMENTING PLUGS

Our wood cementing plugs are designed for rugged dependability. These plugs are constructed from Redwood, high grade plywood and specially compounded rubber cups.

TOP WOOD PLUGS are designed with a one-piece cup and wiper element at both top and bottom of the plug. Three core designs are used for top and bottom plugs. A solid core is used for casing sizes 4-1/2" through 6-5/8". A pinwheel design is employed for casing sizes 7" through 13-3/8". An octagonal core design with solid wood hub and eight spokes is used for 16" and 20" casing.

BOTTOM WOOD PLUGS are constructed with wiper discs at top and bottom. The core designs are the same as top plugs except that solid cores are drilled for slurry passage. The rubber diaphragm covering the center hole is designed with a controlled physical properties profile that allows conventional pump-down operations. Additional pressure ruptures the diaphragm allowing the cement slurry to flow through.

STEEL FINGER CEMENTING BASKETS

Our cementing basket is constructed of flexible spring steel ribs and reinforced rubber overlapping liners. The basket may be run on casing, tubing or liners and will effectively seal off zones below the basket from contamination by cement slurry. The basket can be slipped over the run-in string and the basket's position determined either by couplings at the ends of the joint or by stop rings which can be provided. When installed on a welded string of beveled end steel casing the cementing basket can be welded to the casing itself.

SPECIAL ORDER CEMENTING BASKETS

| | | | |
|-----------|----------------------|--|-------|
| \$ 161.50 | 2" Basket | for 2-3/8" OD casing - hole size 3-7/8" min to 8" max | |
| \$ 167.25 | 2-1/2" Basket | for 2-7/8" OD casing - hole size 4-1/4" min to 10" max | |
| \$ 180.50 | 3" Basket | for 3-1/2" OD casing - hole size 5" min to 11" max | |
| \$ 183.00 | 4" Basket | for 4-1/2" OD casing - hole size 5-3/4" min to 12" max | 4SFCB |
| \$ 199.50 | 5" Basket | for 5-9/16" OD casing - hole size 6-3/4" min to 14" max | 5SFCB |
| \$ 232.00 | 6" Basket | for 6-5/8" OD casing - hole size 7-7/8" min to 15-1/2" max | 6SFCB |
| \$ 232.00 | 7" Basket | for 7" OD casing - hole size 8-1/4" min to 16" max | 7SFCB |
| \$ 269.75 | 8" Basket | for 8-5/8" OD casing - hole size 10-1/2" min to 18" max | 8SFCB |
| \$ 335.00 | 10" Basket | for 10-3/4" OD casing - hole size 12" min to 18" max | |
| \$ 418.00 | 12" Basket | for 12-3/4" OD casing - hole size 13-3/4" min to 18" max | |
| \$ 579.50 | 16" Basket | for 16" OD casing - hole size 18" min to 24" max | |
