## ZOELLER 915 SHARK SERIES RESIDENTIAL SEWAGE GRINDER PACKAGE #9150007 \$ 1150.00

The Zoeller 915 Series SHARK Grinder Pump Package System comes complete with the Zoeller 915 series 1/2 hp 115 volt sewage grinder pump, pre plumbed from the factory in a 18" x 30" Fiberglass Sewage Basin. The model 915-0007 sewage grinder pump comes suspended from the 18" lid, making it easy to install into the basin, or to retrofit a 18" x 30" basin already installed in the basement floor. Now moving to a sewage grinder pump system from a regular 2" discharge sewage pump is easier than ever before.

Zoeller 915-0007 Grinder Package

1/2 hp 115 volt sewage grinder pump is 7 full load amps.

Comes with a 15' cord.

Stainless steel cutter and disc assembly.

Tri-Slice™ cutter technology, is three independent cutting channels which provide over 250,000 cuts per minute.

Cool running design with cast iron motor housing.

1 inch discharge of ground up sewage.

Steel 10' stack test cover with 2" vent and 1" discharge to be used as an indoor unit.

1" sewage check valve with unions is included. All internal PVC piping is factory installed.

Preset float switch and high water alarm switch.

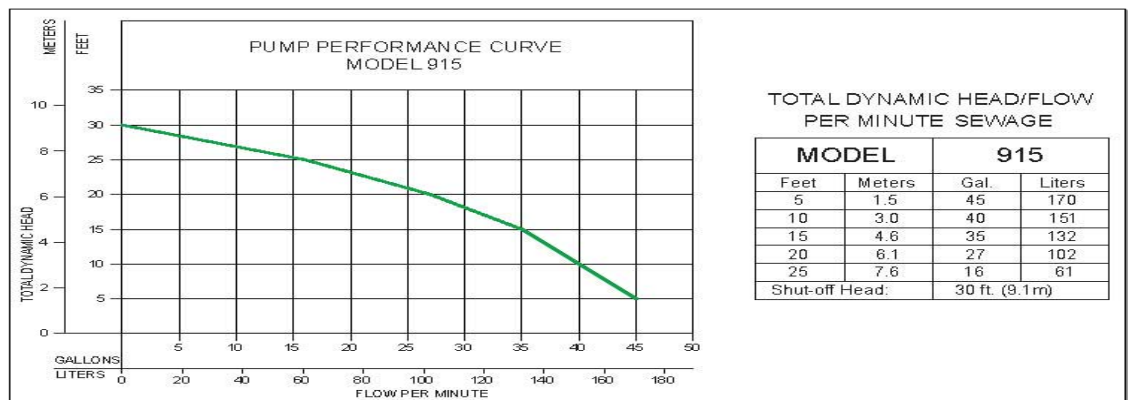

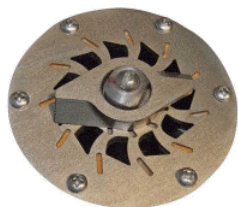

18" x 30" Fiberglass basin for system strength.

Has Basin Scouring System which automatically agitates standing liquid to prevent grease and sludge buildup, which is engineered for the life of the system, since it has no moving parts to wear out.

System has integral baffling and deflection system which allows solids up to 4" in size to enter the basin without becoming lodged or entangled, which minimizes potential float switch obstruction.

All hardware is stainless steel for years of durable, corrosion free service.

Basin is 21-3/4" diameter and 30-1/2" tall with the 4" inlet having a 10-1/2" center line inlet.

TOTAL DYNAMIC HEAD/FLOW PER MINUTE SEWAGE
